

## BSA WH

### Taco macho de rosca externa económico para cargas estáticas en hormigón no fisurado

- Anclaje de acero al carbono diseñado para la fijación estructural sobre soportes sólidos.
- Acero prensado en frío
- Altos valores de extracción
- Clip de expansión especial de 3 sectores
- Adecuado para aplicaciones sobre soportes sólidos: piedra, hormigón.
- Diseñado para fijación pasante.

### ► Aplicaciones

Aplicaciones que no requieran homologación ETA para cargas medias y altas en interiores: estructuras metálicas, soportes, máquinas, carriles, abrazaderas, barandillas, bandejas para cableado, conductos, estantes.
